### EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 10/25/07, Michael Selter requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 50-0687 the required fee of \$120 for this extension and authorized the following examiner's amendment. The following is an examiner's statement of reasons for allowance:

The prior art disclose forwarding of calls in different types of wireless systems, and that piconets, including BLUETOOTH piconets may be used in accordance with the cordless telephony profile and intercom profile in order to change the device at which a call is being carried out, as well as that a gateway device may be established with a larger network, said gateway passing call data and function to other piconet devices, such as in the previously cited BELL reference wherein a piconet Intercom function is used to establish a group call. The present invention includes a method of remotely answering an incoming call to a cellular phone over a piconet comprising: establishing a piconet network comprising said cellular telephone and a remote telephone piconet device in direct communication, said cellular telephone being adaptable to operate as a PSTN gateway and comprising a piconet front end; allowing said incoming call to said cellular telephone to be answered over a piconet network by another
